Errata for ‘MPI Standard 1.1’

May 20, 1996

Section 3.13 In one example of `MPI_PACK` and `MPI_PACK_SIZE`, there are several errors:

```
/* allocate local pack buffer */
MPI_Pack_size(1, MPI_INT, comm, &k1);
MPI_Pack_size(count, MPI_CHAR, &k2);
===> comm missing

k = k1+k2;
lbuf = (char *)malloc(k);

/* pack count, followed by count characters */
position = 0;
MPI_Pack(&count, 1, MPI_INT, lbuf, k, &position, comm);
MPI_Pack(chr, count, MPI_CHAR, &lbuf, k, &position, comm);
===> should be lbuf
```
