The ISO Development Environment: User's Manual

Volume 5: QUIPU

Colin J. Robbins
X-Tel Services Ltd

Stephen E. Kille
Department of Computer Science
University College London

July 18, 1991
(Version 7.0)

Contents

I Introduction **1**

1 Overview **3**
- 1.1 Fanatics Need Not Read Further . . . 4
- 1.2 The Name of the Game . . . 5
- 1.3 Operating Environments . . . 5
- 1.4 Organisation of the Release . . . 7
- 1.5 A Note on This Implementation . . . 9
- 1.6 Changes Since the Last Release . . . 10

2 Overview of QUIPU **12**
- 2.1 Summary . . . 12
- 2.2 Pronouncing QUIPU . . . 14
- 2.3 Why QUIPU . . . 14
- 2.4 Objectives . . . 14
  - 2.4.1 General Aims . . . 14
  - 2.4.2 Technical Goals . . . 14
- 2.5 Roadmap . . . 15
- 2.6 QUIPU Support Address . . . 15
- 2.7 Acknowledgements . . . 16

II User's Guide **19**

3 The OSI Directory **21**
- 3.1 The Model . . . 21
- 3.2 Information Representation . . . 23
  - 3.2.1 Object Identifiers . . . 23

3.2.2 Attributes 23
3.2.3 Names 25
3.3 Directory User Agent 26
3.4 Directory System Agent 27

4 DISH **29**
4.1 Commands 30
4.1.1 Moveto 30
4.1.2 Showentry 31
4.1.3 List 32
4.1.4 Search 33
4.1.5 Add Entry 37
4.1.6 Editentry 38
4.1.7 Delete Entry 38
4.1.8 Modify Entry 38
4.1.9 ModifyRDN 39
4.1.10 Showname 39
4.1.11 Compare 39
4.1.12 Squid 40
4.1.13 Bind 40
4.1.14 Unbind 41
4.1.15 FRED 42
4.2 Sequences 42
4.3 Service Controls 43
4.4 Tailoring 44
4.4.1 .quipurc 44
4.5 Remote Management of the DSA 46
4.6 Caching in the DUA 47
4.7 Running DISH from the Shell 47
4.7.1 DISHinit 48
4.7.2 Example Scripts 48
4.7.3 Files 49

5 SID **50**
5.1 Quickstart 50
5.2 Example Usage 53
5.3 Use of Nicknames 54

5.4 SID Commands 54
5.5 Standard DISH Commands 55
5.6 QUIPU Profile 56

6 DE **58**
6.1 Using DE 58
6.1.1 Starting up 58
6.1.2 Searching for a Person 58
6.1.3 Searching for other information 60
6.1.4 Interrupting 60
6.1.5 Quitting 60
6.2 Configuration of DE 60

7 FRED **64**
7.1 Giving Commands to FRED 64
7.2 Let Your Fingers Do the Walking 64
7.2.1 The Alias Command 65
7.2.2 Back to Searching 65
7.2.3 The Area Command 68
7.2.4 Getting Help 69
7.2.5 Quitting 70
7.3 Advanced Usage 70

8 SD **71**
8.1 Types of Widget 71
8.1.1 Label Widgets 72
8.1.2 Command Widgets 72
8.1.3 Dialog Widgets 72
8.1.4 Toggle Widgets 72
8.2 Using SD 72
8.2.1 Main Options 72
8.2.2 List 73
8.2.3 Search For 73
8.2.4 Go To Number 73
8.2.5 Scrolling Lists 73
8.2.6 Help 73
8.3 Configuration of SD 74

8.3.1 The .duarc file 74
8.3.2 The readTypes file 75
8.3.3 The filterTypes files 75
8.3.4 The typeDefaults file 76

9 POD **77**
9.1 Types of Widget 77
9.1.1 Buttons 77
9.1.2 Dialogue Boxes 77
9.1.3 Menus 78
9.2 Using POD 78
9.2.1 The Main Window 78
9.2.2 The List Window 79
9.2.3 The Read Window 80
9.2.4 The Modify Window 80
9.2.5 Error and Message Popups 81
9.3 Configuration of POD 81
9.3.1 The .podrc File 82
9.3.2 The readTypes File 82
9.3.3 The friendlyNames File 83
9.3.4 The filterTypes Files 83
9.3.5 The typeDefaults File 84

10 Attribute Syntaxes **85**
10.1 Standard Syntaxes 85
10.1.1 PrintableString 86
10.1.2 CaseExactString 86
10.1.3 CaseIgnoreString 89
10.1.4 CaseIgnoreList 90
10.1.5 CountryString 91
10.1.6 IA5String 91
10.1.7 OctetString 91
10.1.8 NumericString 92
10.1.9 DestinationString 92
10.1.10 TelephoneNumber 92
10.1.11 PostalAddress 93
10.1.12 DN 93

10.1.13 OID . . . 95
10.1.14 ObjectClass . . . 95
10.1.15 TelexNumber . . . 95
10.1.16 TeletexTerminalIdentifier . . . 96
10.1.17 FacsimileTelephoneNumber . . . 96
10.1.18 DeliveryMethod . . . 96
10.1.19 PresentationAddress . . . 97
10.1.20 Password . . . 97
10.1.21 Certificate . . . 97
10.1.22 CertificatePair . . . 98
10.1.23 CertificateList . . . 98
10.1.24 Guide . . . 98
10.1.25 UTCTime . . . 99
10.1.26 Boolean . . . 99
10.1.27 Integer . . . 100
10.1.28 AccessPoint . . . 100
10.2 QUIPU Attribute Syntaxes . . . 100
10.2.1 ACL . . . 100
10.2.2 Schema . . . 101
10.2.3 ProtectedPassword . . . 101
10.2.4 SecurityPolicy . . . 101
10.2.5 EdbInfo . . . 101
10.2.6 InheritedAttribute . . . 102
10.3 COSINE/Internet Attribute Syntaxes . . . 102
10.3.1 Mailbox . . . 102
10.3.2 CaseIgnoreIA5String . . . 102
10.3.3 Photo . . . 103
10.3.4 Audio . . . 103
10.3.5 Data Quality . . . 103
10.3.6 DSA Quality . . . 104
10.4 MHS Attribute Syntaxes . . . 104
10.5 ASN.1 . . . 105

11 Introduction to Security Features 106
11.1 Passwords . . . 106
11.1.1 Choosing a Password . . . 106
11.1.2 Taking Care of Your Password . . . 107

11.2 Discretionary Access Control 108
11.2.1 Model 108
11.2.2 Detect Access 109
11.2.3 Effect of ACLs on Operations 109
11.2.4 Example Use of ACLs 111
11.2.5 Extended Example 113

III Administrator's Guide 117

12 Installing QUIPU 119
12.1 Compile Options 120
12.2 TURBO Options for Large Sites 121
12.3 Files 123

13 Configuring a DUA 126
13.1 Connecting to a DSA 126
13.2 Tailoring 127

14 Configuring a DSA 131
14.1 Basic Formats and Structures 131
14.1.1 Entry Data Block 131
14.1.2 Object Class Attribute 133
14.1.3 Database Structure 135
14.1.4 Long Distinguished Names 136
14.2 Setting Up an Initial DSA 137
14.2.1 Presentation Addresses 139
14.2.2 Choosing a Name for Your DSA 141
14.2.3 Setting up Your DSA 142
14.3 Tailoring 146
14.3.1 Tailoring a Running DSA 151
14.4 Modifying your DSA's Entry 152
14.5 Connection to Other DSAs 153
14.5.1 Connection to the Global Directory 154
14.6 Connecting to a Non-QUIPU DSA 155
14.7 Adding More Data 156
14.7.1 More on Object Classes 156

14.7.2 Schemas 161
14.7.3 Photograph Attributes 162
14.7.4 File Attributes 164
14.7.5 Attribute Inheritance 165
14.8 How a DSA Starts 168
14.9 Adding More DSAs 169
14.10 Receiving EDB Updates 170
14.11 Tables 171
14.12 More Help Installing QUIPU 173

15 Security Management **174**
15.1 QUIPU Userid 174
15.2 Shared Libraries 174
15.3 File Permissions 175
15.4 Discretionary Access Control 175
15.4.1 What Must be Publicly Readable 175
15.5 Audit 176
15.5.1 Enabling Auditing 176
15.5.2 Relating Events to Users 176
15.5.3 Format of Audit Records 176
15.5.4 Start of an Association 177
15.5.5 End of an Association 177
15.5.6 DAP Operation 177
15.5.7 DAP Result 178
15.5.8 Chaining 178
15.5.9 Updates 178
15.5.10 Other Events 178
15.5.11 Processing the Log Files 179

IV Programmer's Guide **183**

16 Programming the Directory **185**
16.1 Conventions 185
16.2 Attributes 188
16.3 Distinguished Names 192
16.3.1 User-Friendly Naming 194

16.4 Adding New Syntaxes to QUIPU 195
16.4.1 Where to Add the Syntax Definition 197
16.4.2 Modifying Previous Definitions 198

17 The Procedural DUA **200**
17.1 Procedure Model 200
17.2 Common Parameters 201
17.2.1 Arguments 201
17.2.2 Results 202
17.3 Continuation References 202
17.4 Errors 204
17.4.1 Attribute Error 205
17.4.2 Name Error 206
17.4.3 Referral Errors 206
17.4.4 Security Error 206
17.4.5 Service Error 207
17.4.6 Update Error 207
17.4.7 Abandon Failure 208
17.4.8 Error Handling Procedures 208
17.5 Binding and Unbinding 209
17.5.1 No Authentication 211
17.5.2 Simple Authentication 211
17.5.3 Protected Simple Authentication 211
17.5.4 Strong Authentication 211
17.6 Unbind 211
17.7 Read 212
17.7.1 Entry Information Selection 213
17.7.2 Entry Information 213
17.8 Compare 214
17.8.1 Attribute Value Assertion 215
17.9 List 216
17.10 Search 218
17.10.1 Filters 220
17.11 Modification Operations 223
17.11.1 Add 223
17.11.2 Remove 224
17.11.3 Modify 225
